

Model **ME-LED** MAGNETIC LED LIGHT STAND

Our original LED stand, light weight with modern style!

[Application]

For field & shop processing work on machine tables, as well as a table lamp on a steel desk!

[Features]

- High intensity 5 light or 10 light models use only 5W/ 10 W for power savings.
 - LED one piece lighting unit is light weight and compact.
 - Thin lighting of 21.5mm only is adopted for all models.
- As setting space is not taken, it is suitable to be used in a narrow place.
- With strong magnetic attractive force, it can be easily installed not only on horizontal place but also on slopped surfaces. Adjustable lighting positions are made with the flexible neck.

Model	Type	Holding power	Height	LED	Luminous Flux	Power Source	Power Consumption	Cord Length	Mass
ME-LED-5	Standard type	800N (80kgf)	442 (17.4)	5 lights	Approx 400lm	100 VAC	Approx 5W	1.6m	1.45kg/3.19 lb
ME-LED-5L	Tall type	1000N (100kgf)	622 (24.48)						1.83kg/4.03 lb
ME-LED-10	Bigger light type	800N (80kgf)	422 (16.61)						10 lights

※Repair and replacement of the LED is not possible.

Model **ME-BL** LED LIGHT STAND

Energy saving, high brightness, lights near and far !
